Subject: Installation of Aerostat system at Khatu Shyamji

To: pk61delhi@gmail.com

Dear Praveenji,

At the outset, let me thank you and the Sobhasaria Engineering College on behalf of not only myself but the entire team at Panama Security Solutions India Pvt. Ltd. for thinking of us and recommending our company to the administration and management of the Khatu Shyamji ka Mela in Sikar. We are pleased to inform you that we have been able to install the Door Frame Metal Detectors and Aerostat system very successfully here and the security solutions have been immensely appreciated by one and all, including the Collector and IG of Police during their personal visit to our control room.

As assured to you, we have rendered the services by deploying our team of 7 members in full strength and have done so at a price which will just about meet our costs. That said, we feel extremely blessed by the lord for having received this opportunity and would be happy to do this on a recurring basis year after year. Once again, your support is invaluable to us and we find it very difficult to quantify the same.

With Warm Regards,

Parag Agarwal,
Managing Director
