SICTECHCON-2024 will be held at Sobhasaria Group of Institution Sikar, Rajasthan from 06-07 January 2024. The goal of SICTECHCON-2024 is to provide a platform for conference exhibitions and tutorials on the selected topic of contemporary interest. The conference provides a unique forum for the exchange of knowledge and information among professionals across the globe in the area of recent advancements in science and technology which have greater significance owing to the emphasis on the environment affected by climate change. The conference aims at bringing together the user and researchers of various fields with an emphasis on the technical content of papers.

Technical Tracks

- ❖ Agricultural Research
- ❖ Chemistry
- ❖ Engineering & Technological Research
- ❖ Environmental Sciences Research
- ❖ Healthcare Research
- ❖ Industrial Research
- ❖ Interdisciplinary
- ❖ Life Science
- ❖ Mathematical Science
- ❖ Management
- ❖ Teaching Research

About SGI Sikar

Sobhasaria Group of Institutions and Sobhasaria College are Educational Ventures of Rupa & Co., Kolkata (India) where students of different states come to shape their careers in Engineering, Technology, and Management. The institute was established in 1999 and offers various UG and PG courses (B. Tech, M. Tech, Ph.D., BBA, MBA, BCA, B.A., B. Sc, B. Com, and B.A.-LLB). The institute aims not only to facilitate the intellectual, social, and ethical learning processes of the country's young and aspiring research-oriented minds but also to strive to synergistically work towards the common goal of making a propitious difference in their life.

Author Guideline

Prospective authors are requested to initially submit their digest (6-page max, IEEE format) according to guidelines available on the conference website. All papers presented will go to an e-souvenir book magazine with an ISSN number and will be eligible for further review for publication in IEEE Xplore/ Springer book series.
